# Who Is David?

David Fabricius is an International Speaker, and recipient of the *Mega Entrepreneur North America 2017* award, and the *World's #1 Wealth-With-Balance Coach*. His mission is to help all those wishing to develop their best selves through leadership, sales and experiences you cannot get with another.

Growing up in Africa playing with monkeys while also having a successful entrepreneurial mother was the perfect combination to lead him down his unique path. Daily passion, hard work and innovation created a sequence of successes for David, including training in the Special Forces followed by speaking globally on leadership.

As life goes, tragedy struck his family which put him homeless on the streets of Florida. Determined to rise and live the American dream, he is now once again globally known as an entrepreneur, coach, speaker and real estate investor in only five years' time.

He has spoken on five continents at YPO events globally, shared stages with Tony Robbins, Mark Wahlberg, Mel Gibson, and John Travolta. David was also appointed the *The Key of Freedom to The City of Miami*. David takes an approach that encompasses all of life, as everything is connected, and fires up what needs to be ignited to create the best, most efficient and long lasting results one desires. He would be an absolute asset to anyone's next event.

David's wife and partner, Jessica, brings the softer feminine counterpoint and balance to David's natural Alpha male charisma.

David Fabricicius & Tony Robbins

David facilitating the Fire Walk

The David & Goliath of fire walking, personal growth and peak performance coaching. Tony Robbins and I are the same age, had the same early day teachers, and have both shared World Congress event programs as thought-leaders and speakers in Honolulu, Hawaii and in Sapporo, Japan.

Between the two of us we have facilitated the largest and most numerous fire walk events during the last 3 decades across North, Central & South America, Africa, Asia, Europe, Australia and beyond.

Together, he and I have collectively facilitated more fire walks than anybody else on the planet. He has reached more people, far more, and I have done even more view walks than him. Mine have mostly been for the global financial elite, specifically YPO and EO, he more for the general public.
